

Model 5.2 WC

Elegant yet simple, featuring newly developed quite cone technology (see graph below) the 5.2 WC represents a solid departure from narrow width floor standing towers. Using newly developed highly damped dual 5" woven fibre/wool woofers and a 3/4" dome tweeter the 5.2 WC can project a wide sound stage while providing aesthetically pleasing dimensions and a wide variety of placement options. When used in conjunction with our SW 8 WV subwoofer, a full range system with point source imaging, wide sound stage and extended frequency response is created.

Specifications

System Design	Dual 5" tower- canted tower
Woofers	2 ea 5" Wool Fibre
Tweeter	1 ea 3/4" Vifa Dome
